WIRELESS CONTROLLER WITH RUMBLE FOR PS3

**ITEM No. - DGPS3-1353**  
**UPC - 8 45620 01353 1**  
**COLOR - BLACK/RED**

The Shadow Wireless sets a new standard for PS3 gaming. The customized layout of the analog sticks delivers more comfort and precision to PS3 gamers. It features enhanced L2 and R2 triggers that help prevent your fingers from slipping during game play. Shadow Wireless also features 2.4 GHz latency free wireless technology, dual rumble motors, a built-in rechargeable battery, mini USB charge cable and rubberized grips, making the Shadow Wireless the most comfortable PS3 controller ever created.

• **CUSTOM ANALOG STICK POSITIONING**

When we designed the Shadow Wireless, we swapped the locations of the left analog stick and directional pad while fine-tuning their location for ultimate comfort and precision. This arrangement is similar to that of XBOX 360 controllers, and is the preferred layout of serious gamers everywhere. The Shadow Wireless is the first PS3 controller of its kind, and is sure to set a new standard for controllers of the future.

• **DUAL RUMBLE MOTORS**

The Shadow Wireless is an Officially Licensed Immersion Corporation product, and is built with TouchSense®, Immersion's next-generation rumble technology. TouchSense® provides gamers with the strongest, most detailed rumble feedback on the market.

• **BUILT-IN RECHARGEABLE BATTERY**

The Shadow Wireless features a rechargeable, 3.7V Li-ion battery for hours of uninterrupted gameplay and excellent charging time. Controller package includes a PS3 compatible USB to mini-USB charging cable.

• **ENHANCED L2 AND R2 BUTTONS**

The L2 and R2 buttons (rear triggers) on the Shadow Wireless feature a concave surface to minimize finger-slip while maximizing comfort and precision.

• **INCLUDES A MINI USB CABLE TO CHARGE**

The included USB to mini-USB charging cable is fully compatible with PlayStation 3 and all wireless Sony controllers for PS3. Charge your Shadow Wireless, SIXAXIS wireless, or DualShock 3 wireless controller directly from the PS3 console.

• **LATENCY-FREE WIRELESS GAMEPLAY**

2.4GHz wireless technology eliminates the hassle of tangled cables and limited range, allowing gamers to play comfortably from anywhere in the room. Controller includes 2.4GHz wireless USB receiver.

• **RUBBERIZED CONTROLLER SURFACE**

The Shadow Wireless features a high-quality, rubberized finish and textured grips that combine to ensure complete control and long wear.
